Re-crafting plastic

Florence Zhou

Project Information (EN)

Plastic is the world’s most widely used packaging and we send seven times our own body weight of it to landfill each year. This has dramatic consequences for our already vulnerable planet and associated eco-systems. Initially, I was interested in creat

Projectinformatie (NL)

Plastic is 's werelds meest gebruikte verpakking en we sturen elk jaar zeven keer ons eigen lichaamsgewicht naar de vuilnisbelt. Dit heeft dramatische gevolgen voor onze toch al kwetsbare planeet en de bijbehorende ecosystemen. Aanvankelijk was ik geïn
