Studio Griveau - Open Studio

Studio Griveau opens her studio to present her quirky ceramics as well as her new illustrations of Eindhoven.
Studio Griveau opent haar studio om zowel haar illustraties als haar nieuwe eigenzinnige keramiek te presenteren.

Hosted by: Fanny Griveau

Project Information (EN)

Fingers, the new handy hooks

During Dutch Design Week, a little forest of ceramic fingers will be presented, they are strong, handmade thus all unique and with their own characters. They serve the craziest ideas and procure fun and colours in the house. But that week and for one week only, they are a colony of their own.

Illustrations of Eindhoven

The twelves new illustrations of the coolest art, street art architecture and historical buildings of Eindhoven will be visible in different format. Postcards, calendars but especially a limited framed A3 serie! The delicacy of the sketch lines show the city while some pieces of art or architecture are enhanced by the partial coloured areas and their shiny layer of epoxy.
