Soul Guidance

‘A New World’ is a divination performance where Giek delves into a person's soul, revealing their path in the material world. In the '5th Dimensional Tent', she delves into higher realms, revealing insight into the life lessons, talents, and purpose behind incarnation. Using channeled insights combined with applying the logic from ancient Hermetic teachings, we can transform our struggles and connect with our higher selves. This higher self, the soul in connection with everything, will guide us towards personal transformation, fulfillment, and discovering our life purpose. The ultimate goal, as part of the 'Reality Cult manifesto', is to promote self-actualization by helping individuals find their role in the ongoing global transformation and evolution amid political and ecological crises.

Hidden Powers

Giek_1's art, performances, and readings serve as a portal to uncover the hidden powers and profound metaphysical knowledge of the Universe. Giek_1 inspires individuals to embrace their uniqueness and discover their authentic identity and aims to raise awareness of patterns or behaviors that may originate from trauma and assists in integrating shadow aspects from previous lives, ultimately guiding individuals closer to their true selves. Surrendering to the divine during this journey results in a cycle of death and rebirth, where individuals delve into their innermost world and realize the illusory nature of separation. This profound realization offers hope and strength amidst the confusion of our generation, ultimately prompting individuals to reexamine their own existence. https://reality-cult.com/spiritual-guidance
