Psychological Safety workshop

Discover the key to high performing teams
Ontdek de sleutel tot high performing teams

Hosted by: Magda van Dijk

Project Information (EN)

Live white-boarding session

What makes some teams great and some teams struggle? Some team collaborations are smooth, effective and high-performing. Contrastingly, some teams are energy draining, slow and ineffective. What is the cause of this, and how might we improve teams to become high-performing? These are questions that will be tackled in the workshop. The workshop is a live white-boarding session at the Cognizant office. Only a whiteboard and markers are used.

Projectinformatie (NL)

Live whiteboard sessie

Wat maakt het verschil tussen top teams en onderpresterende teams? In sommige teams is de samenwerking soepel, effectief en is de performance hoog. In andere teams daarentegen kan het slopend, traag en inefficient zijn. Waar komt dit door en hoe zou je teams kunnen verbeteren? Deze vragen worden in de workshop beantwoord. De enige middelen die worden gebruikt in de workshop zijn een whiteboard en markers.
