3rd Design & AI symposium

Two day symposium with keynote presentations, talks and workshops to explore the magic and reality of design and artificial intelligence.
Tweedaags symposium met keynote presentaties, lezingen en workshops om de magie en realiteit van design en kunstmatige intelligentie te verkennen.

Hosted by: TU/e and TUDelft

Project Information (EN)

Confirmed Keynote Speakers

Savannah Kunovsky (Managing Director of IDEO's Emerging Technology Lab) Savannah leads organizations in creating the next generation of technology. Her work spans ecosystems – AI/ML, XR, robotics, the future of the internet, new hardware, and more. Tobias Revell (Design Futures Lead at Arup) Tobias is an artist and designer, sort of. Spanning different disciplines and media his work addresses the urgent need for critical engagement with material reality through design, art and technology.

Breakout sessions (subject to change)

* Evolving Perspectives on AI and Design * Interactive Session: AI and Education * Panel: Exploring the Margins of the Magic * Interactive Session: AI and Creativity * Unpacking the AI Act for Designers

Projectinformatie (NL)

Bevestigde Sprekers

Savannah Kunovsky (Managing Director van IDEO's Emerging Technology Lab) Savannah leidt organisaties bij het creëren van de volgende generatie technologie. Haar werk beslaat ecosystemen – AI/ML, XR, robotica, de toekomst van internet, nieuwe hardware en meer. Tobias Revell (Design Futures Lead bij Arup) Tobias is een soort van kunstenaar en ontwerper. Zijn werk bestrijkt verschillende disciplines en media en richt zich op de dringende behoefte aan kritische betrokkenheid bij de materiële realiteit door middel van design, kunst en technologie.
