Post Carbon Fashion

Post Carbon Fashion = Post-Carbon-Emission Fashion = Climate Positive Fashion
Post Carbon Fashion = Post-Carbon-Emission Fashion = Climate Positive Fashion

Hosted by: Post Carbon Lab

Project Information (EN)

What if, by only wearing a T-shirt, we can neutralise our carbon footprint? Post Carbon Lab proposes innovative biotechnology for textile applications — Photosynthetic Coating — which transforms textiles into carbon capture and oxygen generation surfa

Projectinformatie (NL)

Wat als, door enkel het dragen van een T-shirt, we onze ecologische voetafdruk kunnen neutraliseren? Post Carbon Lab stelt een innovatief bio-technologische textiel applicaties voor — Photosynthetic Coating — die textiel transformeert in koolstof absor
