Permeable Borders

Addressing multidimensional conflicts between polarized communities in Rio de Janeiro

Project Information (EN)

The city is fragmented by multidimensional borders – ideological, spatial, economic, ecological and institutional – that increase the exposure of vulnerable groups to risks and uncertainties. What if these communities could participate and be integrate

Projectinformatie (NL)

Meerdimensionale grenzen -ideologische, ruimtelijke, economische, ecologische en institutionele- verdelen de stad en vergroten de blootstelling van kwetsbare groepen aan risico’s en onzekerheden. Wat als deze gemeenschappen onderdeel zouden vormen van
