

Morphling

Morphing

Morphing

Hosted by: Katrijn Westland (Graduate ArtEZ 2021)

Project Information (EN)

Morphling invites you on an inverted space expedition of our bodies.

Magnifying the galaxy we inhabit, Katrijn sees our bodies less as shells and more as constellations of microbial life. Morphling animates us to reimagine our bodies as interconnected systems which are able to encapsulate other matter or beings. Blurring the boundaries between inside and outside, self and other, it invites us to discover ourselves not as one but as many. You are welcomed to enter Morphling's 'inside', meet the inhabitants and observe its interconnections. Ready for liftoff?
