Project Information (EN)

M S MSH P

M S MSH P Here is your parcel of joy. Designed and produced with love and care for product, people and planet. Created by our favourite artists and designers, inspired by warm memories, inviting you to make new ones. The designs are fit for a museum collection, but it's even better to have and hold them. That's why they are available at the museum shop. So brighten your day with a present to yourself. Or send it to someone special as a letterbox gift. MSMSHP is a new brand initiated by Daphna Laurens. For this brand they asked designers like Carole Baijings, Raw Color and Jeroen Erosie to design a product for the brand.
