

Tech & Design MeetUp: From Local Shit to Local Scrap: Rethinking Raw Materials

Project Information (EN)

What are the hidden effects in the chain of chains? How do you show that something is more durable if costs are higher? And how do you demonstrate the value a designer or company adds to every raw material, local or global?

Projectinformatie (NL)

What are the hidden effects in the chain of chains? How do you show that something is more durable if costs are higher? And how do you demonstrate the value a designer or company adds to every raw material, local or global?
