

Surplus Presents : Secret Santa II

Hosted by: Surplus Collective

Project Information (EN)

Secret Sant gift exchange between designers and creatives

Surplus presents: Secret Santa II or let's be nice to each other ... for the second time. After its first edition during lockdown, where we spent most of our times at home, we all wanted to get a reason to have more objects for each other therefore Surplus decided to make another secret Santa. You can forget about the 10€ budget limitations, this time it's about love, time and furnitures! Each member made a mood-board with their desired style with specific indication, random colours and quirky visuals. After being assigned to someone, we all designed something special and unique that we will offer at the beginning of Dutch Design Week. Designers aren't known for their reliability and often associated with delay. In this edition of the dutch design week, we are revealing the secret santa that we have been preparing since past November. Ronald Smits, Willem Van Hoof, Pierre Castignola, Diego Faivre, Fraser Mc Fee & Amalie Dyrup will present the objects they made for each other.
