

Striptopia

Project Information (EN)

Striptopia has redesigned the strip club experience to appeal to a new millennial audience, by making it a fair, safe, inclusive and fun-filled environment. Join us for an amazing show, and experience how design can transform a place that is usually perceived as scary and stifling, and a job that can be exploitative and at times even abusive. The strip club experience is powered by a mobile app, that allows the audience to interact with performers through an interactive stage. We provide a model for financial transparency, boundaries for consent and bodily autonomy. Come see our strippers and our fabulous show, and discover what design can do!
