

# Walking Colours

Walking Colours

*Walking Colours*

**Hosted by:** Emma Bellengé

## Project Information (EN)

### Repetition and its fascination

The looping motion of crochet, the back-and-forth motion of weaving and the dotting motion of embroidery and quilting. In this way, Emma Bellengé creates a new urban landscape based on colour.

## Projectinformatie (NL)

### Repetitie en haar fascinatie

De lussende beweging van het haken, de schietende beweging van het weven en de stippende beweging van het borduren en quilten. Op deze manier ontstaan haar nieuwe stadslandschappen.
