

interCHANGES | LIVING ENVIRONMENT x THRIVING PLANET

This session is for everyone interested in how we shape and create our cities, interiors, and offices, while empowering nature to heal and thrive.

This session is for everyone interested in how we shape and create our cities, interiors, and offices, while empowering nature to heal and thrive.

Hosted by: Dutch Design Foundation

Project Information (EN)

How can we shape the environment that we live in, while enabling our planet to thrive?

What if we say yes to working towards a fully circular, bio based industry? Then which essential challenges are we encountering along the way? What are potential approaches? With who can and should we take required steps? Closing the loop between suppliers, designers and clients, what entails our personal future role? And how will we collaborate as shared owners? Programme Tuesday 24 October Moderated by Marsha Simon. In English. 09:00 | Doors open 09:30 | Keynote by Annemartine van Kesteren (Curator Design @Museum Boijmans Van Beuningen) 09:45 | Q&A fueled by Dirk van Deursen (Advisor Innovation & Sustainability @CBM) Marije Remigius (Sustainability Manager @Fiction Factory & Founder @Circu Leren) 10:00 | InterCHANGES break-out sessions (*more info below) Session I - Listening, talking, thinking. A philosophical dialogue Session II - Muzus Stretches. An introduction workshop to Muzus' Methods Session III - Miro Mission Mindmapping. Co-creation with peers Session IV - Changemaker Labs by Studio Futurall. About new forms of collaboration 11:00 | Reflective Pause 11:15 | Conclusions with the moderators of the break-out sessions 11:30 | End of programme

***InterCHANGES break-out sessions I & II**

Session I - Listening, talking, thinking. An in-depth philosophical dialogue. Deepen your thoughts around entangled living environment design matters by joining a conversation with keynote speaker Annemartine, Dirk, Marije, BNO Class of 23 Graduate Lois Schoemaker (WDKA - peukenpapier) and Dutch Design Award winner Christien Meindertsma. Guided by moderator Marsha. Session II - Muzus Stretches: an introduction workshop into Muzus' Methods that reach beyond. What if working towards a circular industry is mainly a social challenge? Then what can architects, furniture manufacturers, product designers, involved policy makers and researchers learn from a social design practice? Discover your potential plan of action to complex challenges with diverse stakeholders. By learning from this pioneer's best practices in societal transitions and social issues. Muzus is a Dutch Design Week 2023 Beacon.

***InterCHANGES break-out sessions III & IV**

Session III - Miro Mission Mindmapping with peers. Miro, together with partner Neat, sets up their latest version of a lifesize visual workspace for innovation. There, under the guidance of Miriam van der Lubbe (Creative Head DDW) and Wessel van den Bos (Solutions Engineer Miro), CBM hosts a realtime co-creation session. With Remko Roest (Baars en Bloemhoff), Frank Bouma (Fair Furniture Group), Project Future > Factory > Furniture > from Arco, CS Rugs, Gelderland, Label van den Berg, Lande Family, Leolux and Designed by Overtreders W. What are the lessons learned from Woodloop? What do you think are the required first steps to take towards a circular furniture industry? Session IV - Changemaker Labs: building new forms of collaboration Meet your future chain partner. How could suppliers, brands and their clients collaborate in the future? A workshop by Studio Futurall to find out what kind of changemaker you personally are and create a better understanding how to form more productive collaborations. A chance to meet people with similar missions, in diverse roles and different approaches.
