

Introduction on DDW

Picture this. DDW invites you: come and open up, broaden your horizons, find each other and take action!

Picture this. De kracht van verbeelding. DDW nodigt je uit: kom en laat je verrassen, inspireren, informeren, verbinden en aanzetten tot actie!

Hosted by: Dutch Design Foundation

Project Information (EN)

-

Challenging our digital future Our digital realities and future are fully explored and influenced by designers, from virtual worlds to artificial intelligence and from global platforms to individual experience. These projects shed new light on digital technology, virtual and artificial worlds and look ahead at how these technological developments are changing our world. "Xenofossils (2023)" by Erik Peters "Silk Surveys" by Cypherloom "Voices from the frontlines" by CLEVER*FRANKE "I got consumed by the content I consume" by Elina Ersdorf - Achieving our equal society To achieve an equal society, we must (re)design systems and interactions that value everyone equally. Safety, inclusivity and connection are central themes here. Below is a selection of the work to be showcased during DDW23. Projects that focus on how to interact with each other, with mindsets and methods that are aimed at developing a safe and connected society. "Framed Intimacy foreword" by Bodil Ouédraogo "Kamertijd" by Afdeling Buitengewone Zaken "Archive of spatial knowledge" by Irakli Sabekia

-

Creating our living environment Designing our living environment, mobility, and the materials we use to make them means shaping our own quality of life. The layout of our cities, public spaces, buildings, and mobility solutions has an enormous influence on the way we live together. Below is a selection of the work that will be showcased during DDW23. Projects in the fields of architecture, materials, the design of public space, living and working. "Potentials for The Art of RAW by G-Star RAW" by Johanna Seelemann "Design approach for social transitions" by Zeewaardig, Kickstad, City of Rotterdam "Cortina E-Lett electric bike" by Cortina bikes "Re-volve" by Gudmundur Ludvik for Arco

-

Boosting our health & wellbeing Within the mission Boosting our HEALTH & WELLBEING, the future of our healthcare and a wide range of well-being aspects are addressed. Below you can see a selection of the work presented during DDW23. Designs focused on structurally improving our quality of life – from our food to healthcare and personal well-being – and contributing to the most valuable thing we have: our health. "Soil Steams" by Serina Tarkhanian "Smokefree living for all" by Muzus "How does the ideal 10HA of productive landscape look like?" by Studio Bram de Vos - Enabling our thriving planet For a healthy planet, designs must enhance, or at least not interfere with the natural power of the earth. Below is a selection of the work to be showcased during DDW23. Projects that focus on topics including agriculture, circularity, biobased construction, water, energy, eco-centred design, and material development. "Designing for a green everyday" by House of Thol "Wither 1m3" by Thijs Biersteker in collaboration with UNESCO "The Regenerative Ruin" by Studio – Method

Projectinformatie (NL)

-

Challenging our digital future Onze digitale realiteiten én toekomst worden door ontwerpers volop verkend en beïnvloed, van virtuele werelden tot kunstmatige intelligentie en van wereldwijd platform tot individuele ervaring. "Xenofossils (2023)" door Erik Peters "Silk Surveys" door Cypherloom "Voices from the frontlines" door CLEVER*FRANKE "I got consumed by the content I consume" door Elina Ersdorf - Achieving our equal society Om een gelijkwaardige samenleving te bereiken, moeten we systemen en interacties (her)ontwerpen die iedereen op

waarde schatten. Veiligheid, inclusiviteit en verbinding staan hierin centraal. "Framed Intimacy foreword" door Bodil Ouédraogo "Kamertijd" door Afdeling Buitengewone Zaken "Archive of spatial knowledge" door Irakli Sabekia

-

Creating our living environment Het ontwerpen van onze leefomgeving, mobiliteit en de materialen die we daarvoor gebruiken, betekent vormgeven aan onze eigen leefbaarheid. "Potentials for The Art of RAW by G-Star RAW" door Johanna Seelemann "Design approach for social transitions" door Zeewaardig, Kickstad, City of Rotterdam "Cortina E-Lett electric bike" door Cortina bikes "Re-volve" door Gudmundur Ludvik voor Arco

-

Boosting our health & wellbeing Ontwerpen die onze kwaliteit van leven structureel verbeteren – van ons voedsel tot zorg en persoonlijk welzijn – en die bijdragen aan het meest kostbare dat we hebben: onze gezondheid. "Soil Steams" door Serina Tarkhanian "Smokefree living for all" door Muzus "How does the ideal 10HA of productive landscape look like?" door Studio Bram de Vos - Enabling our thriving planet Voor een gezonde planeet moeten ontwerpen de natuurlijke kracht van de aarde versterken, of die op zijn minst niet in de weg zitten. "Designing for a green everyday" by House of Thol "Wither 1m3" by Thijs Biersteker in collaboration with UNESCO "The Regenerative Ruin" by Studio – Method
