

Treasurefinder, unlock your memories with AI

Exploring how AI could support human remembering practices?

Onderzoeken hoe AI ons herinneringen kan ondersteunen

Hosted by: j.l.jeung@hotmail.com

Project Information (EN)

Treasurefinder

Treasurefinder is a technology probe to explore how artificial intelligence, specifically Large Language Models (LLMs), could support remembering practices related to our everyday possessions.

Projectinformatie (NL)

Treasurefinder

Treasurefinder is een technologisch hulpmiddel om te onderzoeken hoe kunstmatige intelligentie, specifiek Large Language Models (LLMs), ons herinneringen kan helpen op te roepen die zijn gekoppeld aan onze alledaagse objecten.
