

Seasoning Fall - Special Edition for DDW

Seasoning is a quarterly curated event series presenting diverse live performances at the art house in Eindhoven.
Seasoning is a quarterly curated event series presenting diverse live performances at the art house in Eindhoven.

Hosted by: United Cowboys

Project Information (EN)

Performance work in development

Around every change of the season United Cowboys invites you to witness new developments in the field of live art. We take the audience along the various spaces in the Art House, we stimulate the senses and invite the viewer to observe and absorb up close. The upcoming edition - Seasoning Fall - will once again bring a programme of new work in development, which we will place in an international context of performances. An artistic dialogue with dance, music, performance and image, in which the physical predominates. The programme of Seasoning is curated by the artistic team of United Cowboys: Maarten van der Put and Pauline Roelants. With contributions by: Lotte Boonstra (video-installation & screening), Laura Papke (installation & performance), Alesya Dobysh (dance performance), Anthony van Gog (sound installation & performance), and performative contributions by designers part of the DDW exposition.

pre-booking required / limited capacity / *discount applies to DDW ticket holders and students
