That's our first

The Design Department of the Academy of Art in Szczecin is participating in Dutch Design Week for the first time. As we celebrate the five-year anniversary of our department, this represents our most international opportunity yet to engage with a broad spectrum of experts and design enthusiasts. We invite you to explore graduation projects from our three specialties: visual communication, product design, and fashion design. The exhibition features both bachelor's and master's graduates, including the following participants: Kornelia Biały, Sara Brzostek, Daria Dembicka, Dawid Fik, Julia Galewicz, Julia Łyżwińska, and Marta Murawska. Their work represents a humanistic and holistic approach to design, with a focus on community, social issues, and critical perspectives. A common thread across all the projects is a unique, personal approach to the design process. It's a celebration of the diversity of voices in contemporary design. It's personal.
