

Kissing while smoking

A sculptural ashtray combining cast aluminium with richly textured thuja burl wood.

Een sculpturale asbak die gegoten aluminium combineert met rijkelijk getextureerd wortelhout van thuja.

Hosted by: Maxim Lahousse

Project Information (EN)

...

I personally found using these raw materials to create a memorable ashtray to be a really fun challenge. The idea came about because my friends would always ask for an ashtray when they came over to my house, but since I don't smoke myself, I didn't really have one to offer them.

Projectinformatie (NL)

Kussen tijdens het roken

Ik rook niet
