

Guests at Autovitesse

Hosted by: Design Studios 136

Project Information (EN)

Autovitesse is hosting the new generation of design academy graduates We are showcasing work from our 4 years in design aswell as our second graduation projects. The work ranges from prints, furniture, ceramics, lighting and tapestries, to video and publications. The past years we studied under designers like Kiki and Joost, developing projects through material exploration and technique binding with a hands on approach and a critical eye for research. Through this approach we each developped our own design process, techniques, material combinations and projects we would like to display. We are exhibiting this project at art space Autovitesse. We will display our work there and they will react to the work with their interpretation from their archive. This could be books, art or film, showing the similarities and differences of art and design. Participating designers are: Emma Werkhoven, Jelmer Nijp, Rupert Jasper, Victoire Shade Coustilieres, Theun Nouwens and David Garib. In collaboration with Huis Henk Visch.
