

Anthropogenic

Project Information (EN)

There is no such thing as waste in nature. In a natural system, any output generated by one organism becomes useful to another, nothing is left to waste. Human beings, however, have disrupted this natural harmony by placing pressure on natural resource

Projectinformatie (NL)

There is no such thing as waste in nature. In a natural system, any output generated by one organism becomes useful to another, nothing is left to waste. Human beings, however, have disrupted this natural harmony by placing pressure on natural resource
