

Green Future Club

Hosted by: Green Product Award

Project Information (EN)

The Green Future Club presents a curated exhibition of sustainable innovations within the fashion, interior, and materials sector. Featuring a lineup of prototypes, material experiments, and innovative solutions by promising designers, this exhibition aims to introduce and promote market-ready sustainable alternatives. Experience the Green Future Club: Join an international network of over 6000 sustainable industry experts, designers, manufacturers, material developers, media partners, and investors—all dedicated to transforming the economy towards sustainability. The Green Future Club brings together experts and upcoming young designers supported by the IKEA Stiftung to showcase industrial applications and speculative designs that envision a sustainable future. Exhibition: The exhibition will feature winning projects from the 2025 awards and provide a sneak peek of the 2026 nominees, with designers present to inspire and facilitate networking and matchmaking. Highlights: Prototypes and material experiments from promising designers. ● Industrial applications and speculative designs for a sustainable future. ● Showcase of the Green Trend Book 2025, a comprehensive guide with 250 pages of selected winning projects from 13 award categories.
