

African MASS production

Project Information (EN)

80% of the Rwandan population relies on agricultural livelihoods. But because of deforestation, poor soil quality, and climate change, one out of every five of these households are currently food insecure. And this number is only increasing...

Projectinformatie (NL)

80% van de Rwandese bevolking is voor hun levensonderhoud afhankelijk van landbouw. Door ontbossing, onvruchtbare grond en klimaatverandering, lijdt één op de vijf van deze huishoudens een onzeker bestaan. Dit aantal wordt alsmaar groter&h
