Project Information (EN)

Our Collective 2025

De Makersmarkt is a group of designers that all studied at the same academy, and are working together after their graduation to strengthen each others practice. We share tools and workspaces, ideas and inspiration.

A brief introduction to our members;

Judith Spil

Judith is very detail oriented. She repurposes materials to create kinetic art that combines motion and language to create humorous and surprising pieces of art.

Nean Lotze

A maker who designs based on problems that he sees around him, big and small. He uses both digital techniques and hands on manufacturing to create his very useful and inspiring pieces.

Bowen de Boer

A maker who draws heavily on the influence of the craftsman to create his functional designs. Incorporating fine woodworking techniques in his furniture, and using a refreshing design sense in his guitars, he tries to create meaningful work that lasts.
