

Foam Visions

Future visions for Draka Interfoam foam products.

Future visions for Draka Interfoam foam products.

Hosted by: Willem de Kooning Academy & Draka Interfoam

Project Information (EN)

Our society is rapidly changing and becoming more socially and ecologically aware. Therefore, Draka Interfoam has to think about new applications, ways of working and producing. The group of students researched and experimented with various possibilities

Projectinformatie (NL)

A group of Product Design students from the Willem de Kooning Academy worked on new future insights using foam material of Draka Interfoam. Our society is rapidly changing and becoming more socially and ecologically aware. Also Draka Interfoam has to th
