

Sustonable, the sustainable engineered stone.

Come and join our recycling marathon where we recycle 100 PET plastic bottles for every m² of surface created.
Doe mee met onze recyclingmarathon waar we 100 PET-plastic flessen recyclen voor elke m² gecreëerd oppervlak.

Hosted by: Enri Pujadas

Project Information (EN)

Sustonable is bringing the sustainable revolution to every household by creating the first eco-engineered stone. Mixing a unique combination of quartz and recycled PET plastic, Sustonable offers a more ecological surface that never compromises quality a

Projectinformatie (NL)

Sustonable brengt de duurzame revolutie in elk huishouden door de eerste eco-engineered steen te produceren. Door een unieke combinatie van kwarts en gerecycled PET-plastic te mengen, biedt Sustonable een meer ecologisch oppervlak dat geen afbreuk doet aa
