

Sustainable material from The Good Plastic Company

Hosted by: The Good Plastic Company

Project Information (EN)

We produce environmentally friendly panels from recycled plastic. They are high quality and have the lowest ecological footprint possible. Each panel is made from a single type of plastic so it can be easily recycled, extending its use indefinitely. Ou

Projectinformatie (NL)

We produce environmentally friendly panels from recycled plastic. They are high quality and have the lowest ecological footprint possible. Each panel is made from a single type of plastic so it can be easily recycled, extending its use indefinitely. Ou
