

European Design Upgrade: transnational capacity building

European Design Upgrade (EDU) is international project for a community of designers from Ukraine, Belgium, and Finland.

European Design Upgrade (EDU) is een internationaal project voor een gemeenschap van ontwerpers uit Oekraïne, België en Finland

Hosted by: K.Fund, GoLocal, Urban Mill, Creative Brussels

Project Information (EN)

Many of the past creations which are now considered commonplace were bold discoveries at the time. Today, the need for design has grown more than ever. There is a demand for new sources of energy and food, the modern ways for the organization of urban lif

Projectinformatie (NL)

Mange af de tidligere kreationer, der nu betragtes som almindelige, var dristige opdagelser på det tidspunkt. I dag er behovet for design vokset mere end nogensinde. Der er et behov for nye energikilder og mad, de moderne måder til organisering af bylivet
