

Drivers of Change

TU/e Drivers of Change Exhibition and talkshows

Hosted by: Eindhoven University of Technology

Project Information (EN)

A pair of shoes made of seaweed, smart marbles that can detect tube systems for irregularities, minuscule robots that are propelled by light and a new type of electric car developed entirely by TU/e... Corona may strike ugly at TU/e, work is being done

Projectinformatie (NL)

Een paar schoenen gemaakt van zeewier, slimme knikkers die buizen stelsels op onregelmatigheden kunnen detecteren, minuscule robotjes die door licht worden voortgedreven en een nieuw type geheel door de TU/e ontwikkelde elektrische auto... Corona mag d
