Assistive Collaboration Through Agentic Technology
Ondersteunende samenwerking door middel van agentieve technologie

Hosted by: Siladityaa Sharma and Rodney Edwards

Project Information (EN)

As humans, the need to communicate is essential, and it is something that we do every day. Our primary tool is language, most often written or spoken, and through many different mediums. We use it to express how we feel, to explain what we're thinking, an

Projectinformatie (NL)

Als mensen is de behoefte om te communiceren essentieel, en het is iets dat we elke dag doen. Ons belangrijkste hulpmiddel is taal, meestal geschreven of gesproken, en via veel verschillende media. We gebruiken het om uit te drukken hoe we ons voelen, om
