

Lampara & Frame lamp collections

Hosted by: Renate Vos

Project Information (EN)

Lampara

A base of pressed flax recalls the layers of the earth.
Its shade, made from recycled white denim, softens light into a gentle glow.
Raw and refined meet in a lantern that bridges past and future; sustainable and timeless.

Frame

Oak warmth meets the clarity of a minimalist metal frame.
The wooden shade seems to float, adjustable to shift the light.
A play of nature and construction, pure and balanced.
