

Knitagami

Folding knitted textiles created as part of her Masters collection.

Project Information (EN)

Physical interaction with textiles is generally found through the purpose of the textile, for clothing or interior use. Within Knitagami, the purpose of the material is purely interaction focused. To encourage and to entice the visitor to play, thus creat

Projectinformatie (NL)

Enter a virtual world of knitted textiles that play with visual haptics and tactility to encourage the visitor to explore and play with the textiles by hand. Although not physically possible to explore this year, please imagine their textures and playful
