## Project Information (EN)

Digital data became a part of our self identification and personality. It becomes our digital flesh in the virtual reality. We grow into Data, remember it's ways, branches, spikes and maps better than its contents. The deeper the Web the more exciting it

## Projectinformatie (NL)

Digital data became a part of our self identification and personality. It becomes our digital flesh in the virtual reality. We grow into Data, remember it's ways, branches, spikes and maps better than its contents. The deeper the Web the more exciting it
