

Calcáreo by Caro Pacheco

emerging bio matter // algae - mussel based

opkomende bio-materie // op basis van algen en mosselen

Project Information (EN)

Calcáreo studies the possibility of designing new manufacturing processes in design based on the bioreference of calcareous organisms of the marine ecosystem. It seeks to involve people in the reformulation of perceptions that we have with objects that s

Projectinformatie (NL)

Calcáreo bestudeert de mogelijkheid om nieuwe fabricageprocessen te ontwerpen op basis van de bioreferentie van kalkhoudende organismen van het mariene ecosysteem. Het doel is mensen te betrekken om de percepties te herzien die we hebben met de objecten d
