

Living Monument

Project Information (EN)

This project to repurpose a former potato starch plant at Coevorden builds upon the remains of that plant. To these I added new volumes with specific purposes and ambiances to contain dwellings. These dwellings mediate between two positions, namely home I

Projectinformatie (NL)

Bij de herbestemming van de voormalige aardappelmeelfabriek van Coevorden bouw ik voort op de restanten van de fabriek. Daarbij worden woningen gerealiseerd door nieuwe bouwvolumes met specifieke functies en atmosferen te ontwikkelen. De woning bemiddelt
