

Circular Bio-based Construction Industry (CBCI)

Create a circular bio-based economy together

Create a circular bio-based economy together

Project Information (EN)

Currently, from all raw materials used in the EU, 30-50 per cent is used by the construction industry. A key factor in this is that the construction industry is currently dominated by a linear building approach. The majority of the building materials that

Projectinformatie (NL)

Van alle grondstoffen die in de EU worden gebruikt, wordt 30-50 procent gebruikt door de bouwsector. Een belangrijke factor hierbij is dat de bouwsector momenteel wordt gedomineerd door een lineaire bouwaanpak. Het merendeel van de gebruikte bouwmaterialen
