

Crafting Organic Waste For Fashion

Riina Õun www.riinao.com

Project Information (EN)

For ethical reasons, people often opt for non-animal derived products made of so-called “vegan leather”, unaware that it is just greenwashed PVC and PU-based plastic which is very harmful to the environment. As an alternative, I have developed a new m

Projectinformatie (NL)

Om ethische redenen kiezen mensen vaak voor niet-dierlijk ‘veganistisch leer’, terwijl dat vergroend PVC- en PU-gebaseerd plastic zeer schadelijk is voor het milieu. De mode-industrie moet overschakelen naar duurzamere praktijken, afvalstromen benutten en
