

WHAT DOES COLOUR MEAN

Project Information (EN)

This machine transforms plants into colour by inhabiting and replicating local ecosystems. The stories contained in the colours reveal the relation that local inhabitants have with the nature that surrounds them. Nature is not random, and the colours a

Projectinformatie (NL)

...google translate Deze machine verandert planten in kleur door lokale ecosystemen te bewonen en te repliceren. De verhalen in de kleuren onthullen de relatie die lokale bewoners hebben met de natuur om hen heen. De natuur is niet willekeurig en d
