

Underneath Another Moon

A speculative history holds a mirror to Western modernity

Project Information (EN)

The modernity we live now is the consequence of a series of historical human conflicts, rather than developments made by taking rational and positive decisions. This can be illustrated if you look into the shifting period in history, the colonial era

Projectinformatie (NL)

The modernity we live now is the consequence of a series of historical human conflicts, rather than developments made by taking rational and positive decisions. This can be illustrated if you look into the shifting period in history, the colonial era
